KAKAMEGA RAINFOREST

SAVAGE WILDERNESS

JOIN US FOR THE RAFTING TRIP OF A LIFETIME

Big Rapids

Winding through the rainforest, nothing gets the heart going like a big jungle waterfall. This is a class 4/5 3-day rafting section, with an option to walk some of the bigger rapids.

Incredible Wild Camping

As we make our way down the river we will be wild camping in hidden areas. Enjoy sundowners looking over the spectacular forest. This is one of the last remaining areas of true jungle in Kenya. The forest provides as much of a rush as the rafting while you float passed ancient trees.

Included

All your meals, Accommodation, rafting equipment, Savage Wilderness guides, pick up from Kisumu airport and a full savage bar.

Western Kenya

2 OR 3 DAYS RAFTING RAFTING ITINERARY

On our 2-day trip, we will raft two of the mentioned sections.

Day 1

Meet us in the Kakamega area, we can collect you from your hotel or airport. We then head to meet our rafts and guides in time for an early lunch. After a safety briefing, we hit the water. Our warm-up section runs along the edge of the Nandi forest. Fun rapids and excellent birding make for a fun afternoon. We will raft to our campsite for the night, already set up. All you have to do is step off the raft and enjoy a cold drink.

Day 2

Day 2 is our most spectacular day, we head deeper into the heart of the Kakamega forest. Enjoy fun rapids, countless monkeys and giant trees as we float down this truly incredible rafting section. After a full day in the forest, we start to emerge, A short walk up a hill to our wild camp makes for incredible sundowner views over the forest.

Day 3

As the forest thins, fruit trees appear and we top up our breakfast with the pickings. The river starts to calm but this section offers some of the best rapids of the whole trip. The last section of the river passes through small-hold farming and gold mining and you get a good glimpse of rural Kenyan life.
